**VII WRITING**

Nowadays, doing sports on the fresh air more healthy than in building or home.

There are a lot of kind of sport, which is mentioned to do outside. For example, alpinism, skiing, cycling, canoe etc. All of this kind of outside sport enjoyable and exciting. And the main, they are have more better influence for your health, than sport in the gym or home. Because, when you do exercise, for example, in forest or in beach, you breathe fresh and clean air. In my point of view, when you do exercise on nature you think about all problems in your head and you destroy or solve this problems. And it's cool!

But the main minus of outside sport it is that equipment very expensive. For example, if you want to start up alpinism, you need to buy equipment for your safety. This equipment is not the cheapest thing. For else, outside sport always more extremely than inside sport. You can get seriously injures.

In conclusion I want to say that, inspite of minuses, outside sport is more healthy, exciting and interesting.
