WRITING

VII WRITING

The main question of this essay is what is better, doing sport in inside or in outside. There are two ways on doing sport in inside and in outside. And now I would like to show this problem.

First things first, doing sport outside is more enjoyable and better for your health than in inside. When person doing sport in outside he can do it everywhere. For example you can run in the forest or in the town and ~~watch~~^{visit} some interesting places. Another good thing about doing sport outside is clean air. Air in the gym is too bad because of too much sweat in it.

But on the other hand, doing sport inside is cheaper. For example, in bad weather you can't do sport ^{outside}. But in the gym ~~there are~~ it is a constant temperature, ~~for~~ comfortable doing sports comfortable.

In my opinion, doing sport inside is better than doing sport outside. Because it's comfortable for me.

In conclusion I would say that ^{question about} doing sport inside or outside is different for everyone. For some people will be better do sport inside for others in outside.

3+2+2+2+2 = 110
